

## ABOUT THIS COFFEE

It's a group of five women who decided that speciality coffee was their best bet for the future. Founded by Josimar Sodré, also known as Lalá.

Lalá is a leading producer in the region, and a committed producer of speciality coffee.

"For many years, I wanted to produce speciality coffee, but I just didn't know where to start. With the support of my daughters and my neighbours Daiana and Aparecida, we took the plunge. Producing speciality coffee unites people from all over the world and that's fantastic!

In this producing region, the people most involved in speciality coffee are women. We exchange ideas with other speciality coffee producers, and we learn a lot.

I'm sure that the speciality coffee we produce in the years to come will be the key to sustaining future generations."
