Pedro and Gracilda Di Paula met the FAF Coffees Espírito Santo team back when they were still delivering their coffee to a cooperative. Subsequently, they wanted to go further to preserve the Product Traceability of their coffees and improve the quality of their production.

During the harvest, in the Di Paula family, the workday begins at 5 AM and ends at 9 PM. Any help from their family and neighbors is always welcome, and everyone has their task. Pedro is in the plantations and manages the pulper. Gracilda, in addition to taking care of the house, their animals, and their 10-year-old daughter, is responsible for drying the coffee on the patio located alongside the house.
