

FAZENDA VILA BOA – WOMEN

 Brazil • Minas Gerais • Sul de Minas • Carmo da Mata

ABOUT THIS COFFEE

Founded in 1988, Fazenda Vila Boa is Monica's project, born from the farmland she inherited from her father and transformed into a committed estate dedicated to specialty coffee excellence. The name Vila Boa, meaning "pleasant town," reflects the founding vision of the project: bringing together like-minded people around responsible and demanding production. After planting an initial 7-hectare terroir, now known as Campos das Vertentes, Monica and her husband developed a deep passion for specialty coffee. Today, the estate spans more than 1,000 hectares and produces both coffee and dairy, with a strong focus on quality, sustainability, and crop regeneration. For this Natural lot, cherries are harvested at full ripeness, carefully sorted, then dried in the open sun on patios for 10 to 15 days. Once optimal moisture content is reached, the coffees are rested and prepared for export. The farm follows strict agronomic standards, including regular soil and leaf analyses, precise nutrient applications, and the annual renewal of around 10% of its coffee trees. Nearly one fifth of the estate is continuously under renovation, ensuring long-term productivity and consistency.

Farm	Vila Boa
Species	Arabica
Varieties	Red bourbon
Process	Natural
Altitude	1000 - 1150
