

ABOUT THIS COFFEE

Grown in the heart of the Colombian Andes, Boyacá coffee carries the soul of its mountains and the tradition of its people. Cultivated between 1,200 and 2,000 meters above sea level, in fertile volcanic-clay soils and under fresh mountain breezes, each bean develops a unique character.

Boyacá coffee is more than a drink—it is the work of small family farmers, guardians of tradition and sustainability, who nurture the land with respect and passion. Their dedication has earned Boyacá a place among Colombia's most special coffee origins, celebrated in regional and national competitions.

Species	Arabica
Process	Washed
Drying	Greenhouses
Altitude	1700 - 1900
Harvest	September - December
Type of harvest	Manual
