VERBENA

Verbena Coffee is a tribute to the vibrant spirit of Génova, a town nestled in the misty highlands of Quindío. This blend unites the work of several small farms whose roots run deep in volcanic soils and ancestral coffee tradition.

The terroir of Génova is alive with floral corridors, forest edges wrapped in clouds, and fertile earth that nurtures both biodiversity and flavor. From this harmony emerges a cup with bright aromatics, subtle florals, and a balanced body that lingers gently, like the fragrance of verbena carried on a mountain breeze.
