

ABOUT THIS COFFEE

"Ten years ago, after more than 15 years abroad, our family made the decision to return to Colombia and start a specialty coffee project inspired by our time in Central America. It was the fulfillment of a long-held dream: my father had always wished to own a coffee farm. That dream came true, and on that land—where I first learned about coffee cultivation as a teenager, our journey began.

Seven years ago, we planted the Wush Wush variety, intrigued by its potential. Since then, it has shown remarkable results in plant development, productivity, and cup quality. This unique coffee presents a refined profile with floral-lemon notes, hints of lemongrass, vanilla, and ripe fruits. Even when cooled, it maintains a pleasant sweetness and clean texture, offering a delicate and layered sensory experience.

This Wush Wush is not just a variety, it is part of our story, a reflection of dedication, heritage, and the pursuit of excellence in every cup."

Farm	Andaluz
Producer	Manfred Hiller
Species	Arabica
Varieties	Wush wush
Process	Washed
Drying	Patios
Altitude	1750
Harvest	March - June
Type of harvest	Manual
