

ABOUT THIS COFFEE

Pink Bourbon is a rare and celebrated hybrid, believed to be a natural cross between Red and Yellow Bourbon. It is prized for its complexity in the cup, vibrant acidity, and refined sweetness—often revealing notes of floral aromatics, tropical fruits, and delicate spice.

At 1,400 meters above sea level, this particular Pink Bourbon grows under native shade trees in a carefully balanced microclimate. The small-scale nature of the lot allows for precision farming: each tree is monitored individually, receiving natural fertilization, regenerative soil care, and hands-on attention throughout the growing cycle.

Farm	Buenos Aires
Producer	Jesus Bedoya
Species	Arabica
Varieties	Pink bourbon
Process	Washed
Drying	Greenhouses
Altitude	1400
Harvest	May - June
Type of harvest	Manual
