BANKO GOTITI

Ethiopia • Yirgacheffe • Gedeb

ABOUT THIS COFFEE

After harvesting, the cherries are sorted and then washed, before fermenting in tanks for 48 to 72 hours. 8 employees of the station are then responsible for washing the cherries with the utmost care.

After washing, the coffee beans are dried for between 7 and 10 days, depending on the weather, on raised beds, with the humidity of the beans monitored throughout the drying process.
