PARAINEMA

WASHED

MARCALA

This coffee is produced by Bryan Bautista, a third-generation coffee producer in Marcala, La Paz Department, Honduras. Coming from a family dedicated to coffee cultivation for over 40 years, he took over the family farm after completing his university studies.

The production originates from Finca Adolfo's, located in the community of Musula, at an elevation of 1,640 meters, in the heart of the Marcala terroir. The farm boasts a history of approximately 50 years in coffee production.

The Parainema varietal is among those currently cultivated on the farm, alongside other profiles progressively developed by Bryan since the property's handover, which was initially planted exclusively with Lempira.

This lot 104H is processed using the washed method.
