

ABOUT THIS COFFEE

This coffee is produced in the heart of the Dipilto mountains, near the border with Honduras. It is cultivated on sandy soil at an altitude of between 1,200 and 1,500 metres. Most coffee bushes are grown under shade (70% with various species), and the soil and plants are fertilised using environmentally-friendly techniques.

Producer	Olman Valladarez
Species	Arabica
Varieties	Java
Process	Washed
Drying	Drying beds
Altitude	1200 - 1500
Harvest	November - March
Type of harvest	Manual
