

DUKUNDE KAWA MUSASA

Rwanda • Province du Nord • Musasa

ABOUT THIS COFFEE

The Ruli Coffee Washing Station is located in Gakenke District, Ruli, Jango, in the village of Gatagara. It was established in 2004 by 300 pioneer members. Today it has 1,800 member families and is the largest of the four coffee washing stations owned by the Dukunde Kawa cooperative. Each year the washing station exports almost 4 containers of green coffee.

The station is ideally located on a large hill overlooking an equally impressive valley, just 55km from Kigali, the capital of Rwanda.

The different stages:

Harvesting: the cherries are harvested from March to October on small plots of land at an altitude of between 1800 and 2100 metres. Producers are trained in selective harvesting: only perfectly ripe cherries are picked.
