

ABOUT THIS COFFEE

This exceptional Kenyan AA coffee comes from Bahati Blue Farm, located in the highlands of Nakuru County. The farm is owned and operated by the dedicated couple Sheila and Alkis, who cultivate two carefully selected varieties: Batian and Ruiru 11.

In 2024, Fantanesh, our Quality Manager based in Addis Ababa, personally visited Bahati Blue Farm. During her visit, she made a remarkable observation: it was the first time she found coffee trees growing under shade in Kenya a practice that reflects the farm's dedication to sustainable and quality-focused agriculture.

This lot is classified as AB determined by bean size (Screen 17–18) and density. The harvest is carried out with meticulous attention to quality. Cherries are picked at full ripeness, with the harvest lasting all day to collect only the ripest fruit and prevent them from falling, which would compromise quality.

Producer	Bahati Blue
Species	Arabica
Varieties	Batian, Ruiru 11
Process	Washed
Drying	12 days drying beds
Altitude	2030
Harvest	December - March
Type of harvest	Manual
