WASHED

BAHATI BLUE

This exceptional Kenyan AA coffee comes from Bahati Blue Farm, located in the highlands of Nakuru County. The farm is owned and operated by the dedicated couple Sheila and Alkis, who cultivate two carefully selected varieties: Batian and Ruiru 11.

In 2024, Fantanesh, our Quality Manager based in Addis Ababa, personally visited Bahati Blue Farm. During her visit, she made a remarkable observation: it was the first time she found coffee trees growing under shade in Kenya a practice that reflects the farm's dedication to sustainable and quality-focused agriculture.

This lot is classified as AA — Kenya's highest coffee grade, determined by bean size (Screen 18 +) and density.
