CATURRA ROUGE

WASHED

LA LEONA

Finca La Leona is located in the Tolima region, in the Planadas terroir. Being able to harvest coffee all year round, thanks to the two harvest periods, from October to December and from May to July. We're lucky to be able to drink this coffee all year round!

Of the farm's 43 hectares, 25 are dedicated to growing coffee. The farm is managed by Laura Enciso, who has been in charge since 2019. The management of the farm is exemplary, with very little use of products, only when necessary to protect the coffee trees from rust and coffee borers.

During a sourcing trip with our teams, one of our customers was immediately attracted by the incredible potential of this farm. He chose to make a commitment to Laura to undertake the reforestation of the farm and to support her towards increasingly organic practices.
