

ABOUT THIS COFFEE

Amber is a tribute to the heritage, dedication, and vision that drive Café Primitivo. Grown at Farm Primavera in Quindío by producer Ana María Donneys, this Pink Bourbon lot represents the purest expression of a variety that has become central to the estate's identity. The trees were originally planted by Ana María's mother and have demonstrated, over the years, an exceptional ability to thrive under the farm's unique altitude and microclimate, consistently producing cherries of remarkable sweetness and complexity.

Beyond its remarkable cup profile, Amber tells the story of a continuous quest for quality and sustainability. This plot played an important role in the farm's transition from conventional fertilization practices to organic drench nutrition, reflecting a long-term commitment to soil health and ecosystem resilience. Meticulous orchard management throughout the year ensures healthy trees, balanced ripening, and optimal cherry development before harvest.

Farm	La Primavera
Producer	Ana Donneys
Species	Arabica
Varieties	Pink bourbon
Process	Washed
Drying	Greenhouses
Altitude	1550-1700
Harvest	May - July
Type of harvest	Manual
