

ABOUT THIS COFFEE

This forest coffee comes from the Mancity farm run by DIMITU, located in the Odo Shakiso woreda, at an altitude of over 2,000 metres, in the Guji appellation.

The coffee produced here is of the highest quality; both on their farm of origin and during processing in Addis Ababa.

The washed coffee is fermented in a fermentation vat for around 24 hours, under expert supervision, before drying on raised beds. The station includes a built-in tank and a source of clean water, which they are allowed to use with the agreement of the local population.
