HEIRLOOM

WASHED

Khalid is particularly attached to this farm, where he grew up, and which he has been managing for several years with the same dedication as his father and grandfather before him. It is a family business, so he also works with his brother, and both are constantly seeking to improve the quality of their coffee. They are particularly mindful of preserving the natural local environment. Khalid is well aware that this natural heritage is what makes his product quite so unique.
