## ABOUT THIS COFFEE

This coffee is produced in a farm owned by Renardo: Finca Terrazas. This farm is located in the exceptional terroir of La Libertad and in the famous Huehuetenango region in a lush vegetation with high humidity. That's why it's impossible to produce natural coffees here. Jacqueline, Renardo's wife, uses her discerning palate and Q Grader training to help define the profiles and characteristics of each of the farm's coffees. She marks this San ramon and Pacas microlot 89, hence its name !

What is a WOMEN COFFEE?

We decided to support women producers by identifying their coffees with a WOMEN COFFEE logo. Why?

Because women play a vital role in the industry, they have a strong involvement in the farms and represent more than 70% of the labour force in the fields, harvesting, sorting the beans...

However, only 10% of them are entrepreneurs and only 20% are landowners (including joint ownership with their spouses).
