

ABOUT THIS COFFEE

This coffee is grown in the Marcala region of Honduras. Our Miskito selection comes from the province of El Paraiso, renowned the world over for its coffees. The producers have a know-how that has been passed down from generation to generation.

They own small fincas of no more than 10 hectares, where the coffee trees are grown entirely under shade to ensure that the cherries ripen properly.

Species	Arabica
Varieties	Blend
Process	Washed
Drying	Patios
Altitude	1600
Harvest	October - March
Type of harvest	Mechanical
