

RADIOPHARE — SEMI—WASHED

 Indonesia • Java • Sunda

ABOUT THIS COFFEE

Sourced from the Puntang area within the Sunda terroir in West Java, this coffee is a blend of Typica, Line S, and Catimor.

This coffee is cultivated exclusively under the shade of various tree species (pines, eucalyptus, erythrin, avocado trees). It is processed using the semi-washed method by the Klasik Beans cooperative, which also operates on the islands of Bali, Java, Sunda, Flores, and Sulawesi.

Founded in 2008 by a group of producers in Puntang, the Klasik Beans cooperative shares a complementary philosophy with Belco, focusing on quality, human well-being, and environmental respect.

Nestled between high-altitude forests and rice paddies, the plantations spread across the Guntur, Halimu Tilu, and Puntang volcanoes.

Producer	Klasik Beans
Species	Arabica
Varieties	Typica, Line S, Catimor
Process	Semi-washed
Drying	Drying beds
Altitude	1200 - 1500
Harvest	May - September
Type of harvest	Manual
