BOB O LINK — RANCHO DANTAS

SCAN THE QR CODE FOR MORE INFO ON BELCO.FR

Rafael Marques, the manager of FAF Coffees Espírito Santo, and in charge of the Lado a Lado project, met Pedro and Gracilda Di Paula when they were still delivering their coffees to a cooperative. They wanted to go further in order to maintain the traceability of their coffee and to improve the quality of their production.

During the harvest, the Di Paula family's working day starts at 5 a.m. and ends at 9 p.m. Any help from family and neighbours is always welcome and everyone has their own mission. Pedro is the man of the field and the one who manages the pulper.
