NATURAL

# DAKITI TATMARA

This forest coffee, from Kaffa, comes from a rich environment. Produced by Negusse, an involved producer, this coffee is cultivated by protecting this nice ecosystem. The old trees provide ideal shade for coffee berries. The fertility and quality of the soils are preserved by sustainable peasant agriculture.

Focus on the variety 74110

NAME

74 (year of creation) & 110 (sample of the mother tree)
