

FINCA IRLANDA

Mexico • Chiapas • Soconusco

ABOUT THIS COFFEE

Finca Irlanda, in Chiapas, is the first biodynamic coffee farm in the world. The Finca Irlanda cascara on offer is certified Organic and Demeter, guaranteeing a pesticide-free cascara!

This is a natural coffee cascara. To obtain it, you need to wait for the coffee to dry completely. Once dry, after the cherries have been hulled, the hull is passed through a column of air, whose blast separates the cascara from the remaining parchment by density.

We are lucky enough to be able to offer you some of this cascara for drinking. Another part remains on the farm and is used to nourish the soil of Finca Irlanda's other crops (coffee, cocoa, vanilla, turmeric, etc.) in a completely natural way. A real virtuous circle!

Farm	Finca Irlanda
Producer	Walter Peters
Species	Robusta
Process	Natural
Altitude	1100
Harvest	February - May
Type of harvest	Manual
